PROFESSIONAL PROFILE

Software Engineer and Full-Stack Developer with 4 years of experience building scalable web and mobile applications. My background includes roles as a Web Application Project Lead and UI/UX Designer. Additionally, I have experience as a Data Analyst, Cybersecurity Specialist, and Programming Instructor, allowing me to bridge Software Architecture, Technical Development, System Integrations, Agile Methodologies, Final Product Deployment, and team mentorship across international projects.

NOTABLE PROFESSIONAL EXPERIENCE

TIENDAMÁS – MULTI-VENDOR MARKETPLACE · [Link](#)

Remote, Argentina

Project Lead | Software Architect | Full-Stack Developer

October 2024 – June 2026

- Led the development and architectural design of a multi-vendor marketplace, covering product catalogs, categories, pricing, shopping cart, and purchasing workflows.
- Built responsive user interfaces and integrated frontend components with backend services and databases to support product and customer data management.
- Applied modular design principles and Git/GitHub version control to maintain code quality, support collaboration, and facilitate future enhancements.

PACIFICO SECURITY – CYBERSECURITY COMPANY WEBSITE · [Link](#)

Buenos Aires, Argentina

Frontend Developer | UI/UX Designer

February 2024 – July 2024

- Designed and developed the company's website, creating responsive interfaces focused on usability, accessibility, and user experience.
- Developed dedicated sections showcasing cybersecurity services, including security assessments, penetration testing, incident response, and compliance standards.
- Implemented clean, optimized, and well-structured code to ensure fast page loading and an intuitive navigation flow for potential clients.

AGORA – CONSTRUCTION COMPANY WEBSITE · [Link](#)

Remote, Argentina

Frontend Developer | UI/UX Designer

March 2023 – September 2023

- Designed and developed the entire website for a construction company from scratch, ensuring a modern and fully responsive interface.
- Developed features to showcase engineering projects, services, and project galleries while optimizing image rendering and page load performance.
- Implemented clean, maintainable code and improved website navigation to support future updates and a seamless user experience.

STUDENT REGISTRATION & MANAGEMENT SYSTEM · [Link](#)

Remote, Argentina

Full-Stack Developer | Python, Django & SQL

October 2022 – February 2023

- Developed a student registration and management web application using Python and Django, implementing core features to securely organize and process academic records.
- Created responsive frontend interfaces and integrated them with the Django backend to ensure seamless data flow and form submission.
- Built the platform using Django's Model-View-Template (MVT) architecture, maintaining a separation between the user interface, application logic, and database persistence.

TECHNICAL SKILLS & COMPETENCIES

- Full-Stack Web Application Development.
- Frontend Development & UI/UX design implementation.
- Backend Development & Business Logic Implementation.
- REST API Development & System Integration.
- Database Design, SQL & Data Management.
- Software Architecture & Modular Application Design.
- Object-Oriented Programming (OOP), Data Structures & Algorithms.
- Software Testing, Functional Testing & Quality Assurance.
- Debugging, Troubleshooting & Application Maintenance.
- Application Performance Optimization.
- Version Control & Collaborative Development (Git, GitHub, GitLab).
- Clean Code, Maintainable Software & Engineering Best Practices.

TECHNOLOGIES & TOOLS

- **Programming Languages:** JavaScript, TypeScript, Python, PHP, Java, C#, C, C++.
- **Frontend Development:** HTML5, CSS3, React, Angular, Vue.js, Svelte, Bootstrap, Tailwind CSS.
- **Backend Development:** Node.js, Django, Flask, PHP.
- **Databases:** MySQL, PostgreSQL, MongoDB, SQLite, SQL.
- **APIs & Integration:** REST APIs, Frontend-Backend Integration, Postman.
- **Testing & QA:** Manual Testing, Functional Testing, Web Application Testing, API Testing.
- **Version Control:** Git, GitHub, GitLab.
- **Data Analytics:** Pandas, NumPy, Power BI.
- **CMS & E-commerce:** WordPress, Elementor Pro, WooCommerce, Shopify.
- **Design & Content Tools:** Figma, Canva, CapCut, PhotoRoom.

EDUCATION

- **Technical Degree:** National University of Catamarca (UNCA), Argentina. | [Link](#)

CERTIFICATIONS & TRAINING

- **Full-Stack Development Diploma:** Nodo Tecnológico. | [Link](#)
- **Data Analysis with Python:** DS4B (Digital Solutions for Business). | [Link](#)
- **STEAM Training Scholarship for Women:** Austral University, Buenos Aires, Argentina. | [Link](#)
- **1st Place:** VIII Student Conference on Research and Technological Innovation. | [Link](#)
- **Programming Instructor Recognition:** Faculty of Technology and Applied Sciences (FTyCA), UNCA. Academic Interest Resolution No. 377-23. | [Link](#)
- **AI Hackathon Participation Certificate:** Hack Team, Argentina. | [Link](#)

LANGUAGES

- **Spanish:** Native.
- **English:** B2 (Upper-Intermediate) - Conversational Communication, Technical Reading & Writing.
